What is Reiki?

Reiki is Life Force Energy guided by the Highest Wisdom in the Universe. It is a holistic healing system treating the whole being, addressing disease at all levels: physical, mental, emotional and spiritual. Reiki creates space for the body and emotions to heal, bringing them into balance and promoting health, happiness, and long life.

Reiki works by allowing muscles to relax and increasing blood flow to treated areas, quickening the healing process. It also promotes psychological healing, including release of anger, fear, worry and sadness and replaces them with confidence and tranquility.

Reiki is a safe complement to Western medicine.

Holy Fire—A New Reiki Energy

Holy Fire energy is a real and living flame and resonates on a much higher vibrational level, coming from a higher level of consciousness. The flame purifies, and where it purifies, it releases disharmonious energies, replacing those energies with the Holy Fire.

"I need to tell you how absolutely wonderful I felt after our last [Holy Fire] Reiki session. There was a huge difference between the heaviness and tenseness that I felt when I got to your house and how light and relaxed I felt when I left. Even better, it lasted several days!! I was truly amazed at how great I felt."

Complementary care for you and your Animal Companions!

Animal Communication

True communication between all life forms brings understanding and replaces fear. So many of the problems that exist with our animal companions are due to a lack of understanding on our part of what they need.

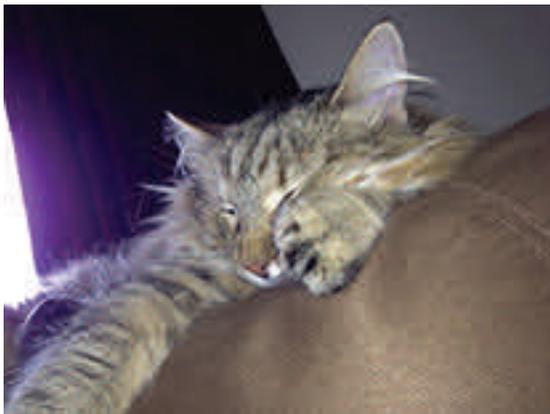

Outward behavior does not always reflect what is going on inside and it isn't until we stop and truly listen with our hearts that we can hear what they are trying to tell us.

Debora will connect with your animal and through feelings, images and words, learn what is most important to them and what they need you to know.

"I want to tell you your conversation with Pushkin has resulted in a great outcome, even exceeding my expectations."

In a session you can learn ...

- The root cause of behavior/emotional issues
- What your animal needs to be happy and healthy
- How to communicate life changes to your animal
- What messages they may have for you!

Reiki for Animals

Animals respond intuitively to Reiki's power to heal emotional, behavioral and physical illnesses and injuries. It is ideal for use with animals because it does not cause stress, discomfort or pain. The animal controls the treatment, accepting Reiki in the ways that are most comfortable for them and deciding how much energy they need. Shelter animals can benefit greatly from Reiki treatments.

"Your sessions with Ragamuffin have solved her problem [nightmares]! Thank you so much!"

Benefits

For animals who are healthy, Reiki helps to maintain their health, enhances relaxation, and provides an emotional sense of peace and contentment.

For animals who are sick or injured, Reiki can delay the progression of certain diseases, provide pain relief for various illnesses and injuries, and accelerate healing from surgery.

For animals who are ready to pass on, Reiki is a powerful yet gentle way to provide comfort, relief from pain, and to ease the transition to death.
